

Commercial HVAC Sales Engineer

We have an immediate opening for an experienced, full-time commercial HVAC Sales Engineer to join our team. The Sales Engineer must serve as an ambassador of the company and will routinely communicate directly with customers, vendors and suppliers. The position includes a competitive compensation package commensurate with experience, as well as, a generous benefits package.

Qualifications

- Minimum 10 years of successful commercial and industrial HVAC sales engineering.
- Must be proficient in system design, estimating and project management for commercial equipment replacement and mechanical projects.
- Must have working knowledge of larger equipment, such as: boilers, chillers, packaged units, VRF, CRAC and controls.
- Familiarity with service is a plus.
- Strong verbal and written communication skills are required.
- Must be able to pass a background check, MVR & drug test.
